

IV.

Elements soaking gently
magnesium, calcium, compassion

petite dozes
flaming jewels
fizzling ephemeral
amalgamates
unselfishly stapled as one
for presence
that essence of past and future
encounters

let them, let me
speak off telluric
temperatures
flexible existences
highly functionalized desires
residing untied
flawless escapades
(of) nature classes
arranged peacefully

and

simmering melodies
locked lines
curves
trajectories
pointed as
catalysts for

magnificent transformations
inevitable characteristics
of self
of the heart.
